Waterproof carrying case Peli 1660

A waterproof case designed for bulky equipment

The **Peli 1660 waterproof case** meets the needs of professionals who need to transport sensitive, bulky equipment in demanding conditions. Its robust design ensures optimum protection against harsh outdoor environments.

IP67 certified, it guarantees total dust tightness and protection against temporary immersion. Its shock-resistant structure makes it a reliable solution for transporting technical, electronic or intervention equipment.

A format optimized for transport and mobility

Thanks to its **large storage capacity**, the suitcase can accommodate bulky equipment while ensuring that it remains secure and protected. It is particularly suited to the industrial, audiovisual, security and maintenance sectors.

Its **reinforced wheels** and **ergonomic handles** make it easy to carry, even when loaded. This design considerably enhances comfort of use when moving frequently or on uneven terrain.

A reliable solution for demanding environments

The Peli **1660 professional waterproof case** is built to last. Its resistance to extreme conditions makes it a benchmark piece of equipment for professionals needing maximum protection for their equipment.

It's perfect for intensive use requiring robustness, reliability and ease of transport.

FAQ - Peli 1660 waterproof case

For which professional uses is the Peli 1660 best suited?

The **Peli 1660** is particularly suited to professionals who need to transport **bulky, sensitive equipment** in the field: industrial maintenance, audiovisual, security or technical interventions. It secures equipment even in difficult conditions.
