

Angled flashlight PELI™ 3715Z0 Atex Zone 0

The PELI™ 3715Z0 ATEX Zone 0 projection lamp

Peli, renowned for innovation and quality, pushes the boundaries of portable lighting even further with its **3715Z0 right-angle LED lamp**. Designed to provide powerful, precise lighting, this lamp is an essential tool for those who need visibility and reliability, whether in a professional environment or for outdoor activities. Its unique design illuminates the path directly at an **optimum angle**, ensuring **clear**, glare-free **vision**.

Features:

- **Lighting power:**
The **Peli 3715Z0 lamp** offers three brightness levels to suit your needs
 - **189 lumens** for powerful, focused illumination.
 - **90 lumens** for softer, more energy-efficient lighting.
 - **Signaling mode** for increased visibility in emergency situations.
- **Compact, rugged design:**
Thanks to its **compact, lightweight format**, this lamp is easy to carry, yet rugged enough to withstand the toughest working conditions.
- **Protection rating:** Designed to withstand shock and water, it's perfect for use outdoors and in industrial environments.
- **Autonomy and power management:**
An **autonomy indicator** lets you check the charge level before setting off, ensuring you're never caught

unprepared.

- **Advanced LED technology:**

Uses the **latest LED technology** to ensure **optimum energy efficiency** while delivering **intense, reliable light**.

Benefits :

- **Precision lighting:** The lamp's **right-angle design** illuminates the floor optimally, allowing you to see better where you're walking without dazzling your eyes or those of your colleagues.
- **Versatility of use:** With its different **brightness levels** and **signaling mode**, the Peli 3715Z0 is ideal for a multitude of situations: **camping, hiking, working on construction sites, inspection**, or even as **an emergency light** in emergency situations.
- **Guaranteed battery life:** the **battery indicator** is a real plus to avoid any unpleasant surprises. You'll be able to anticipate the need to change batteries before setting off on an extended mission.
- **Lightweight and robust:** Its **compact design** makes it easy to carry, while its **ruggedness** ensures unflinching durability in **extreme conditions**.

Uses:

The **Peli 3715Z0 LED lamp** is particularly useful for professionals and adventurers looking for reliable, precise lighting. It is indispensable for :

- **Field workers** (technicians, engineers, inspectors, etc.) who require quality lighting for their precision work,
- **Hikers and campers** who need a powerful, lightweight, weather-resistant light,
- **Emergency situations** where visibility and signaling are crucial to safety.

The **Peli 3715Z0 LED** is much more than just a flashlight. It embodies Peli's **legendary innovation and excellence**, combining **cutting-edge technology, lighting power** and **practical design**. Whether for professional, outdoor or emergency use, it offers **unrivalled performance**. Its **rugged design, powerful illumination** and **optimized battery life** make this lamp a must-have choice for those who demand the best in portable lighting.
