Stream large capacity ampoule holder - 50 ampoules

Stream large capacity ampoule holder - 50 ampoules

The**Stream large-capacity ampoule holder** is a transport and protection solution specially designed for the secure storage of **up to 50 medical ampoules**. Designed for **rescue**, **civil protection** and **emergency medical** professionals, it meets the requirements of field operations requiring organization, rapid access and optimum protection.

Thanks to its **high-capacity format** and sturdy design, this ampoule holder can carry a large volume of medicines while ensuring their integrity. Its ergonomic design makes it easy to use in operational situations, even under demanding conditions.

The function of a large-capacity ampoule holder

A **large-capacity ampoule holder** is an essential piece of equipment for medical and rescue teams with large stocks of injectable medicines. It enables ampoules to be **efficiently stored, organized and protected**, while guaranteeing rapid access during operations.

Unlike makeshift transport solutions, the Stream ampoule holder **significantly reduces the risk of breakage** and ensures better management of medical supplies, particularly when travelling frequently or in difficult environments.

Technical specifications

- **Type:** large-capacity ampoule case
- **Capacity:** up to 50 ampoules
- **Dimensions:** 32 x 16 x 10 cm
- **Closure:** secure zip
- **Structure:** semi-rigid for reinforced protection
- **Contents :** supplied with 3 sets of bridges to hold blisters in place
- **Use:** transport and organization of medical ampoules
- **Applications:** rescue, medical, security, industry

Operational benefits

Designed for demanding environments, the high-capacity Stream ampoule holder offers several key benefits:

- **Large storage capacity** for long or complex operations
- **Effective protection** against impact and repeated handling
- **Optimized organization** thanks to included clamps for secure ampoule holding
- **Compact size** despite high capacity
- **Reliability in field conditions**

An ideal solution for professionals needing to transport a large volume of medical equipment, while guaranteeing safety and efficiency.

Professional applications

The**Stream 50 ampoule holder** is particularly suited to the following applications:

- Emergency and rescue services
- Firefighters and fire safety teams
- Mobile medical units
- Hazardous industrial sites

A complete range of professional equipment with MMF

MMF offers a selection of equipment adapted to the constraints of demanding operational environments. Transport and protection solutions such as ampoules are chosen for their **robustness, ergonomics and reliability**.

This approach enables us to meet the needs of **rescue**, **medical**,**industrial** and **security** professionals, with products designed to optimize field operations.

MMF expertise and support

Thanks to its technical expertise, MMF supports professionals in their choice of high-performance equipment, adapted to their professional constraints. Each product is selected according to strict criteria to guarantee **safety, durability and operational efficiency**.
