Peli iM2600 waterproof carrying case

A waterproof case designed for field environments

The Peli **iM2600 waterproof transport case** is designed to secure sensitive equipment when working or traveling in difficult conditions. Its sturdy design absorbs impacts and effectively protects the contents against external aggressions such as humidity and dust.

It's a reliable solution for professionals in the field who need constant protection for their equipment.

A balanced format for capacity and mobility

The iM2600 offers sufficient volume to carry technical equipment, while remaining easy to handle. It optimizes equipment transport without compromising practicality on the move.

This **professional carrying case** is ideal for users looking for a good compromise between capacity and ergonomics.

A robust design from the Storm range

Manufactured to **Peli** Storm standards, the iM2600 is designed to withstand demanding conditions of use. Its high-resistance materials guarantee optimum durability, even in harsh environments.

Its secure closure system and reinforced waterproofing ensure constant protection of the equipment carried.

Applications and uses

- Field operations
- Transport of technical equipment
- Protection of sensitive equipment
- Use in industrial or outdoor environments

Why choose the Peli iM2600 for field use?

The iM2600 offers reliable protection in demanding environments, while remaining maneuverable enough for frequent travel. It's ideal for professionals who need rugged, versatile equipment.

What kind of equipment can be carried in this case?

This case is ideal for transporting technical equipment, electronic devices or tools requiring extra protection when working or traveling.
