Headlamp PELI™ 2740

Peli™ 2740 headlamp - Power and autonomy.

Discover the ™ 2740 headlamp, an essential accessory for industrial professionals. Combining power, autonomy and cutting-edge technology, this Peli**™ headlamp** meets all yourlighting needs.

The **Peli™ 2740 headlamp** is designed to offer a maximum power of 66 lumens, adjustable between low and high thanks to its 3 LEDs. A red LED ensures vision in total darkness, guaranteeing personnel safety during interventions.

Features of the Peli™ 2740 headlamp:

The **Peli™ 2740 headlamp** is compact and lightweight, measuring 5.7 cm and weighing just 94 g. Thanks to the red LED, it's ideal for interventions in total darkness. Lighting power is variable: in low mode, it offers 36 lumens with a range of 16 meters; in high mode, it reaches 66 lumens for a range of 22 meters. In low mode, autonomy is up to 21 hours.

Advantages of the Peli™ 2740 headlamp:

- **Versatile lighting**: With 2 white LEDs and 1 red LED, this headlamp lets you spot objects even in total darkness.
- **Accessories Included**: Upon delivery, you'll receive a fabric strap for bare-head use, a helmet mounting bracket, and AAA batteries.
- **Resistant material**: Made of impact-resistant polymer, this Peli™ headlamp ensures optimum protection in extreme conditions.
- **Ergonomic Design**: Suitable for professional use, it's also ideal for sports and leisure activities, offering safety and protection thanks to its triple LED.

The Peli™ 2740 headlamp is particularly useful in industrial services, railway industry etc.

Equipped with 2 white and 1 red LED, this headlamp makes it possible to spot objects even in total darkness. Particularly during night-time inspections on tracks or in tunnels, the white LEDs provide clear visibility for detecting anomalies, while the red LED preserves night vision when it's necessary to read documents or labels.

On delivery, the light is supplied with a fabric strap for bare-head use, a helmet mounting bracket, and AAA batteries.

A maintenance worker can easily use the lamp by attaching it to his safety helmet or wearing it directly on his head, leaving his hands free to work on installations. What's more, its hard-wearing material ensures optimum protection in extreme conditions. The lamp's sturdiness ensures that it will function even after shocks, offering indispensable reliability during interventions.

Contents of the Peli™ 2740 headlamp:

The 2740 headlamp comes with:

- 1 fabric strap
- 1 glue-on helmet mount
- 3 LR3 batteries
