A cabin case designed for business travel

The **Peli iM2875** has been designed for users who regularly travel with sensitive equipment. Its compact, cabin-style format makes it easy to move around, while offering excellent protection against shock, humidity and dust.

This **waterproof hard-shell case with wheels** is ideal for transporting portable computers, tablets, technical documents, electronic devices or accessories essential for on-site missions.

An organized interior for IT equipment and accessories

Thanks to its optimized layout, the iM2875 can carry a computer portable, chargers, cables, compact measuring instruments or business files in an orderly fashion. Its format facilitates rapid access to contents while maintaining excellent storage capacity.

Its **sturdy wheels** and **retractable telescopic handle** ensure comfortable transport, whether at airports or on industrial or technical sites.

The renowned robustness of the Storm range

Manufactured to **Storm** standards, this case benefits from a durable design designed to withstand intensive use. Its **HPX® resin** structure combines lightness and high impact resistance to effectively protect sensitive equipment during transport and storage.

Press & Pull™ latches ensure secure closure while remaining simple to handle. The **Vortex® valve** automatically balances internal pressure to facilitate opening after variations in altitude or temperature.

Ergonomic bi-material handles, padlockable hasps and **reinforced hinges** complete a sturdy, reliable design, particularly suited to frequent travel.

Applications and uses

- Transporting computers portable and tablets

- Protection of sensitive IT equipment
- Professional travel and business trips
- Transport of technical documents and accessories
- Interventions on site or in industrial environments

Questions in the field

Can the iM2875 be used as a carry-on case?

Yes, its compact wheeled format is particularly well-suited to business travel and transporting sensitive equipment.

What kind of equipment can be carried in this case?

A computer portable, a tablet, computer accessories, technical documents or small electronic equipment.

Why choose the iM2875 for frequent travelers?

Its interior organization, mobility and reinforced protection make it an ideal solution for professionals who carry computer or electronic equipment on a daily basis.
