Peli iM3075 waterproof carrying case

A large-format case for securing sensitive equipment

The Peli **iM3075** is designed to protect fragile or expensive equipment during transport, storage or field operations. Its rigid shell absorbs impacts and effectively protects contents from moisture, dust and external stresses.

This **professional transport case** is ideal for industrialists, technicians, integrators and audiovisual service providers who need to move large equipment safely.

Generous interior volume for bulky equipment

Thanks to its large dimensions, the iM3075 is ideal for storing measuring instruments, electronic devices, test equipment, photo and video equipment, specialized tools or systems requiring extra protection.

Its **sturdy wheels** and **retractable telescopic handle** make it easy to handle, even when the case is heavily loaded. It's an ideal solution for users who need large storage capacity without compromising on mobility.

Storm technology for protection

Manufactured to **Storm** standards, this case boasts a durable design designed to withstand intensive use. Its **HPX® resin** structure combines lightness and high impact resistance to effectively protect sensitive equipment during transport and storage.

Press & Pull™ latches ensure secure closure while remaining simple to handle. The **Vortex® valve** automatically balances internal pressure to facilitate opening after variations in altitude or temperature.

Ergonomic bi-material handles, **padlockable hasps** and **reinforced hinges** complete a robust and reliable design, particularly suited to industrial, technical and logistics sectors.

Areas of use

- Transport of electronic and industrial equipment
- Protection of test and measurement instruments
- Moving audiovisual equipment

- Secure storage of bulky equipment
- Technical and logistical applications

Questions in the field

Why choose the iM3075?

The iM3075 offers huge storage capacity, yet is easy to move thanks to its wheels and telescopic handle. It's ideal for transporting sensitive, bulky equipment.

What kind of equipment can be carried in this case?

It can accommodate electronic devices, technical instruments, specialized tools, audiovisual equipment or any other equipment requiring extra protection.

Is this case suitable for intensive use?

Yes, its waterproof design and reinforced components make it a reliable solution for professionals using their protective equipment in demanding environments.
