

Waterproof carrying case Peli 1560M

A large-format case designed to protect sensitive equipment

The **Peli 1560M** is designed for professionals looking for a robust transport solution to secure their equipment on the move, in the field or in storage.

Thanks to its large interior volume and wheeled design, this **large-format waterproof case** makes it easy to transport technical, electronic or professional equipment requiring enhanced protection against the stresses of the field.

Interior space designed for equipment organization

This configuration features a special interior layout to better organize the equipment carried. Its generous volume facilitates the storage of sensitive materials, technical accessories or equipment requiring secure packaging.

This organization increases efficiency on the move, while limiting equipment movement during transport.

Reliable protection in demanding environments

IP67 certified, the **Peli 1560M** effectively protects its contents against dust and temporary immersion in water in accordance with the conditions stipulated by this rating.

Its rigid shell absorbs impacts, while the automatic pressure-balancing valve facilitates opening after variations in altitude or temperature. This robust design preserves equipment during regular transport and intensive use.

Mobility for business travel

Sturdy wheels and a retractable telescopic handle make it easy to move around, even when the case is loaded. Its format allows you to carry more equipment while maintaining excellent maneuverability.

This configuration is particularly suited to users looking for a **wheeled protective case** that combines storage capacity, strength and ease of transport.

Peli 1560M advantages
