

Micro Case 1040

PELI Micro Case 1040: A compact case for protecting small equipment

The **PELI Micro Case 1040** is a small protective case designed to safeguard sensitive equipment during transport, storage, or repeated handling. It protects the contents from water, dust, and impacts, while remaining a convenient size to carry.

This model is part of [PELI](#)'s Micro Case line, designed for everyday items, compact accessories, and small equipment that require enhanced protection. Depending on the version chosen, the case is available in opaque or transparent with colored trim.

Waterproof, rugged, and easy to use

The **Micro Case 1040** features a durable design with a **polycarbonate** body. Its **rubber liner** provides additional protection for the contents and also acts as an O-ring seal.

IP67-certified, it protects against water and dust under the conditions specified by this certification. Its **automatic pressure-equalizing valve** helps balance internal pressure while keeping water out.

A practical micro case for storage and transport

The **PELI Micro Case 1040** is ideal for storing small items that require reliable protection. It can be used to protect fragile components, accessories, small devices, or personal items, provided their size fits inside the case.

Its easy-open latch allows for quick access to the contents, while its carabiner makes it easy to hang or carry. It is a simple and effective solution for keeping small equipment protected and accessible.

The benefits of the PELI Micro Case 1040
