1 kg ABC Dry Powder Fire Extinguisher - Set of 6

This **set of 6 1-kg ABC dry-chemical fire extinguishers with constant pressure** is an ideal solution for equipping multiple workstations, vehicles, technical facilities, or public-access buildings. Compact and versatile, each extinguisher enables a rapid response to fires involving solids, flammable liquids, or gases.

Thanks to their compact size and six-unit packaging, these fire extinguishers perfectly meet the needs of businesses, local governments, fleet managers, workshops, retail stores, and technical services seeking compliant and immediately available fire safety equipment.

Why choose an ABC dry chemical fire extinguisher?

The ABC dry chemical fire extinguisher is one of the most versatile pieces of firefighting equipment. It can be used effectively on:

- **Class A:** wood, paper, cardboard, textiles, and solid materials.
- **Class B:** hydrocarbons, solvents, paints, and flammable liquids.
- **Class C:** flammable gases.

Its extinguishing powder acts quickly by interrupting the combustion reaction, making it particularly well-suited for industrial environments, workshops, parking garages, vehicles, and mechanical rooms.

Permanently pressurized fire extinguisher: immediately ready for use

Each fire extinguisher is equipped with a **permanently pressurized** system, ensuring immediate deployment without any preparation time. The built-in pressure gauge allows you to quickly verify that the unit is operational.

The steel cylinder, nickel-plated brass head, and safety pin with plastic strap ensure excellent reliability and long-term durability.

Technical Specifications

- **Type:** permanently pressurized fire extinguisher
- **Extinguishing agent:** ABC powder
- **Charge:** 1 kg

- **Fire class:** A, B, and C
- **Propellant:** nitrogen at 15 bar
- **Operating weight:** 2.1 kg
- **Dimensions:** height 350 mm - diameter 85 mm
- **Tank:** steel
- **Nozzle:** nickel-plated brass
- **Operating temperature:** -30°C to +60°C
- **Certification:** Complies with standard NF EN3-7 + A1
- **Compliance:** European Directive 2014/68/EU on pressure equipment
- **Packaging:** set of 6 fire extinguishers

Commercial Applications

This **set of 6 1-kg ABC dry powder fire extinguishers** effectively covers multiple areas requiring protection:

- Commercial vehicles and heavy-duty trucks
- Workshops and maintenance areas
- Offices and retail stores
- Warehouses and technical facilities
- Public facilities and establishments open to the public
- Construction sites and temporary facilities

The Benefits of Bundled Packaging

Packaging in **sets of 6 units** makes it easier to equip multiple sites or vehicles uniformly while simplifying maintenance and replacement of the fire extinguisher fleet.

This solution is particularly well-suited for companies seeking to standardize their first-response equipment while optimizing their inventory management.

MMF: Your Partner in Fire Safety

MMF assists professionals in selecting firefighting equipment that complies with regulatory requirements. Our line of fire extinguishers meets the needs of businesses, local governments, industrial facilities, and technical services with reliable, high-performance solutions tailored to on-site conditions.
