

Carrying Case for a 125-cm Tripod

The **tripod carrying case** allows you to store, protect, and transport a compatible lighting stand. It is designed to meet the needs of users who regularly transport their equipment between multiple locations, rooms, job sites, or events.

With an interior length of **125 cm** and an interior diameter of **15 cm**, this bag is suitable for tripods whose folded dimensions fit within these specifications. It helps minimize friction, dirt, and minor impacts associated with everyday transport.

Easy transport thanks to the shoulder strap

The case is equipped with a **shoulder strap**, which makes it easier to carry the lighting stand while on the move. Its light weight of **0.4 kg** ensures the overall load isn't unnecessarily heavy.

This model is a basic carrying case with no interior compartments or specific protection rating. It is therefore primarily intended for everyday storage and transport, rather than for enhanced protection against significant impacts or harsh conditions.

Technical Specifications

Technical Specifications – Tripod Carrying Case

- storing a lighting stand between uses;
- protection against friction and dirt during routine transport;
- travel to construction sites, events, workshops, or temporary installations;
- carrying over the shoulder using the built-in shoulder strap.

FAQ – Carrying Case for Light Stand

How can I check if my lighting stand is compatible with this bag?

Compare the dimensions of the folded stand with the case's internal dimensions. The case has an interior length of **125 cm** and a specified interior diameter of **15 cm**.

Does this bag protect against significant impacts?

No. This is a simple carrying case with no reinforced interior padding or specific protection rating. It primarily protects against friction, dirt, and minor impacts associated with everyday transport.

Does the case have a shoulder strap?

Yes. It is equipped with a **shoulder strap**, which makes it easy to carry the compatible light stand over your shoulder.

Can this bag be used for a lighting ball stand?

Yes, but only if the folded stand fits within the available dimensions: **125 cm** in length and approximately **15 cm** in interior diameter. You should therefore check the closed length and overall dimensions of the stand before use.
