RALS spotlight PELI™ tt terrain 9470M

Peli™ RALS 9470M floodlight - Ultra-powerful, eco-friendly mobile lighting system

Designed for demanding environments and remote areas, the Peli **RALS 9470M mobile lighting system** is the ideal solution for portable, eco-friendly and robust lighting. Featuring **all-terrain castors**, **extendable telescopic masts** and **four ultra-bright LED heads**, it guarantees unrivalled autonomy, performance and mobility. This revolutionary system advantageously replaces traditional, noisy and polluting generators, while offering **silent, emission-free** operation.

Technical specifications:

- **Light output**: up to **24,000 lumens** (6,000 lumens per LED head)
- **Lighting heads**: **4 LED heads**, 360° swiveling
- **Telescopic masts**: Height extendable up to **1.80 m (6 ft.)**

- **Intelligent control system**:

  - Remaining runtime display
  - Autonomy: from 7h to 24h depending on lighting power
  - 3 preset power levels
  - Customized intensity setting mode
  - Lighting duration programming

- **Recharging**:

  - Mains operation possible
  - **Continuous recharging** function

- **Mobility**:

  - 38 mm polyurethane castors with stainless steel ball bearings
  - Integrated**all-terrain cart**

- Retractable handle

- **Auxiliary power supply**: 12V port with dual USB adapter
- **Operating temperature**: Suitable for cold environments
- **Compliance with standards**: RoHS, CE
- **Safety**: Lead-acid batteries to be recharged with lid open (see warning)

Advantages :

- **High luminous performance** without noise or emissions
- **Intelligent autonomy**: optimized battery management
- **Lighting versatility** with full LED head rotation
- **Easy to transport**, even over rough terrain
- **Enhanced safety** thanks to clear charge indicators
- **Completely self-contained** in a shockproof, weatherproof Peli protective case
- **Environmentally friendly**: no fuel, no smoke, low carbon footprint

Application:

The Peli RALS 9470M lighting system is perfectly suited to a variety of sectors and environments:

- **Rescue and emergency response**
- **Night work**
- **Outdoor events**
- **Technical inspection or industrial maintenance**
- **Military or security missions**
- **Remote areas without access to electricity**

Its silent operation and exceptional mobility make it an invaluable tool for all situations where reliable, self-contained lighting is essential.

The **Peli RALS 9470M** is much more than just a floodlight portable: it's an **intelligent, environmentally-friendly, high-performance mobile lighting solution**. Whether you're a building professional, an emergency operator or a technician on the move, this robust, self-contained system gives you power, safety and freedom of action.
