

PELI™ 's MityLite 1950 Mini Lamp Gift Set

The **Peli 1950 MityLite Submersible Mini Light Kit** is designed to provide a compact light and its essential accessories in a convenient package. It is suitable for inspections, rapid response operations, visual checks, or auxiliary tasks requiring a small, easily portable light.

The flashlight runs on **2 AAA batteries** and uses a **xenon** light source that delivers **4.7 lumens** for a runtime of approximately **2 hours**. **Batteries are not included** with this kit.

This product is sold as "**refurbished**": its **original packaging has been opened and then resealed properly**.

A kit with a flashlight and accessories

The set includes the [Peli 1950 MityLite mini flashlight](#), a **replacement xenon bulb**, a **replacement O-ring**, a **90° Light Bender angle reflector**, a **split ring**, and **red and blue night vision discs**.

The angle adapter allows you to direct the beam as needed, while the red and blue filters let you adjust the lighting for specific inspection, signaling, or night vision situations. The spare bulb and O-ring round out the kit for field use.

A lightweight, submersible mini flashlight

The Peli 1950 MityLite stands out for its compact size and portability. It turns on by rotating the head, with simple on/off operation.

Its **IPX7** waterproof rating allows for use in damp environments or where the lamp is exposed to water splashes. It is ideal for professionals seeking a rugged, compact, and readily available task light.
