Universal Recyclable First Aid Kit

The **Universal First Aid Kit** contains all the supplies needed for basic first aid in a compact, easy-to-store format. It is available in **two sizes: for 1 to 5 people and for 5 to 10 people**, with quantities of supplies tailored to each group size.

Made of **100% recyclable PE (polyethylene)**, it features a **resealable zipper closure** and a **European-style hole** for hanging. Its size makes it particularly suitable for offices, retail locations, workshops, company vehicles, and workstations.

Which first-aid kit capacity should you choose?

The **1- to 5-person** version is suitable for small teams and workstations requiring compact equipment. The **5- to 10-person** version has the same dimensions but contains more bandages, gauze pads, and other supplies to accommodate a larger group.

A compact size for workstations

With identical dimensions of **190 × 280 mm**, both pouches can be stored in a small space or hung up using the European-style hole. The resealable zipper keeps the various items together while providing easy access to the contents.

Customize the pouch to suit your site’s needs

This kit contains supplies for **common first-aid** needs, including minor wounds, cuts, bruises, The choice between the two capacities depends on the number of people to be equipped and the site's layout. When multiple work areas are spread out, distributing several pouches can help keep first-aid supplies close to users.
