ECO Multi-Purpose First Aid Kit for 2 People

The **Multi-Purpose First Aid Kit for 2 People** combines, in a compact format, the supplies needed for common first aid situations: **minor wounds, cuts, bruises, and eye injuries**. It includes various sizes of bandages, sterile gauze pads, elastic bandages, cleaning products, and the essential accessories needed to quickly treat a minor injury.

It is available in **two versions with identical contents**: a soft kit made of waterproof fabric and a fluorescent yellow PU version. The choice therefore depends mainly on the type of container you're looking for, its size, and the desired visibility. In both cases, the size is suitable for a small team, a work vehicle, or a remote workstation.

Which version should you choose: fabric or PU?

The **waterproof fabric** version features a flexible, lightweight design that's easy to store in a vehicle, bag, or confined space. Its zipper closure, interior compartments, and belt clip keep the supplies organized while making it easy to carry.

The **fluorescent yellow PU** version offers quicker identification thanks to its highly visible color and **retro-reflective cross**. It also features a carrying handle and a strap-style belt clip, making it ideal for users who regularly need to travel with their first-aid supplies.

Technical Specifications

	2 people	2 people
	Waterproof fabric	PU (polyurethane)

Weight	200 g	240 g

A kit designed for common first-aid needs

Both versions contain the **same first-aid supplies**. Bandages of various sizes and sterile gauze pads help protect minor wounds, while elastic bandages and adhesive tape help secure a dressing.

The kit also includes several types of compresses for cleaning or minor care, as well as a single-use packet of **sterile saline solution**. A pair of gloves, scissors, and a splinter remover round out the set, providing all the essential accessories in a single container.

Contents common to both versions

Contents	Quantity
Adhesive bandages 20 × 72 mm	10
Adhesive bandages 53 × 70 mm	4
Adhesive bandage, 10 × 6 cm	1
Pack of 5 sterile gauze pads, 7.5 × 7.5 cm	1

70° alcohol swabs	2
Calendula-infused anti-bruise pads	2
Drying lotion compresses	2
Sterile saline solution	1 packet
First aid booklet in 10 languages	1

A compact kit for small teams

Designed for **2 people**, this kit fits easily in a work vehicle, a workshop, an office, or near a remote workstation. Its compact size keeps first-aid supplies accessible without taking up much space.

The interior compartments allow you to organize the various supplies and find the necessary items more quickly.**The belt clip** included on both versions is also a benefit for users who need to carry the kit with them.

Two cases with the same contents

The fabric version offers a flexible and lightweight solution when minimizing bulk is a priority. The PU version, on the other hand, offers **greater visibility thanks to its fluorescent yellow color and retro-reflective cross**. This allows you to choose the case best suited to the environment in which it will be used while keeping the same first-aid supplies.
