Multipurpose Semi-Rigid Emergency Kit for 4 to 6 People

The **Multirisques First Aid Kit for 4 to 6 people** allows you to keep all the supplies needed for routine first aid for a small team in a single container. Its contents are specifically designed to address needs related to cuts, minor bleeding, bruises, splinters, and superficial wounds.

Thanks to its **wall mount**, the kit can be permanently installed in a clearly marked location in a workshop, office, or utility room. Its handle then allows it to be carried directly to the person in need of assistance.

A compact kit for a small team

Measuring **250 × 190 × 90 mm** and weighing only 740 g, this model is space-saving while containing the essential supplies for a team of 4 to 6 people.

Its **polypropylene** shell provides a rigid structure while maintaining a certain flexibility in the material, making it suitable for a kit that is regularly handled or moved.

A kit designed for common injuries

The various sizes of dressings provide protection for wounds of different sizes. Sterile gauze pads, elastic bandages, and adhesive tape round out this kit for cleaning, protecting, and securing wounds.

Two **sterile pressure dressings** and a pack of Coalgan® hemostatic wicks also provide appropriate solutions when bleeding requires more specialized care.

Additional products for everyday incidents

The kit also contains calendula compresses for minor bumps, sachets of cream for minor burns and chapped skin, as well as 3 single-use doses of sterile saline solution.

Lister scissors, a splinter remover, a leather finger cot, and disposable gloves round out the kit, providing all the necessary supplies for routine first aid.
