Universal Recyclable First Aid Kit for 5 to 10 People

The **Universal First Aid Kit for 5 to 10 people** includes an expanded selection of supplies for common first aid needs while maintaining a compact, easy-to-store design.

It is particularly suitable for offices, retail stores, workshops, work vehicles, and small facilities seeking versatile equipment for **cuts, minor wounds, minor bleeding, bruises, and eye injuries**.

Extensive supplies in a compact format

Despite measuring just **190 × 280 mm**, the kit contains a substantial supply of bandages, gauze pads, and first-aid supplies suitable for a group of 5 to 10 people.

It is made of **100% recyclable PE (polyethylene)**. Its resealable zipper keeps the supplies organized, while the European-style hole allows the pouch to be hung within easy reach of users.

Technical Specifications

Sterile saline solution, 5 ml	5 single-use doses
First aid booklet in 10 languages	1

26 adhesive bandages and 10 sterile gauze pads

The kit contains **26 adhesive bandages in three different sizes** to cover small wounds of various sizes.

Two pouches, each containing 5 sterile gauze pads, bring the total supply to **10 sterile gauze pads**. Two pressure bandages round out this kit for situations requiring greater compression.

Three strips for securing

One 5-cm elastic bandage and two 7-cm bandages are used to secure the gauze pads or adhesive bandages. A roll of adhesive tape completes the securing supplies.

A 15-cm pair of Lister scissors, a splinter remover, and a pair of disposable gloves are also included.

A Generous Supply of Medical Supplies

Ten chlorhexidine-soaked wipes are provided for skin cleansing. The kit also includes 2 sets of three arnica gel tubes, 5 alcohol-based wipes, and 5 packets of gelified water.

With **5 5-ml doses of sterile saline solution**, it also provides several rinsing units for small splashes or dust.

A size suitable for teams of up to 10 people

The 190 × 280 mm size allows for a relatively large supply to be stored in a pouch that is easy to store and identify.

It is particularly suitable for **offices, retail locations, workshops, company vehicles, technical facilities, and small work units** that need a compact first-aid solution.

Check the kit regularly

Used items should be replaced as needed. You should also periodically check the condition of the packaging and the expiration dates to ensure that the kit remains fully stocked and immediately available.
