MOLLE Panel for the Lid of a PELI CRATE CR45 / CR90

Extra storage space in the lid of your PELI CRATE

The **MOLLE panel for** PELI **CRATE lids** lets you make the most of the space inside your case's lid to organize your accessories and small professional equipment.

Designed for **PELI CRATE CR45 and CR90 cases**, this gray panel fits directly under the lid without taking up space in the main storage area. It's a practical solution for keeping the essentials you need for your jobs within easy reach: pouches, cables, flashlights, small tools, and other compatible accessories.

This way, every item has its place and remains easily accessible as soon as you open the case.

Customizable organization thanks to the MOLLE EZ-Click system

Thanks to its **MOLLE attachment grid**, the panel allows you to install pouches, straps, and various compatible accessories according to your needs. This lets you organize your gear based on its use, size, or how often you need to access it.

The **EZ-Click attachment system** makes it easy to remove the panel to change its layout or set up different storage configurations.

Benefits of the PELI CRATE MOLLE Panel

- **Space optimization:** Utilizes the interior surface of the lid while preserving the main storage volume.
- **Quick access to equipment:** makes it easy to find the small accessories needed for operations.
- **Customizable storage:** accommodates pouches, straps, and accessories compatible with the MOLLE system.
- **Modular configuration:** removable panel thanks to the EZ-Click system, allowing you to adapt the organization of your gear.
- **Compatibility:** Designed for PELI CRATE CR45 (45 L) and CR90 (90 L) cases.

Frequently Asked Questions About the PELI CRATE MOLLE Panel

Where does the MOLLE panel attach inside a PELI CRATE?

The panel attaches to the inside of the lid of PELI CRATE CR45 and CR90 cases. It allows you to use this space to organize small items without taking up space in the bottom of the case.

What is the difference between a MOLLE panel and an interior divider?

The **MOLLE panel** is used to attach pouches and accessories under the lid, while **interior dividers** are used to compartmentalize the case's main storage space.

Is the MOLLE panel removable?

Yes, its EZ-Click system allows you to remove the panel to reorganize accessories or adapt the storage configuration to different uses.

Are MOLLE pouches and accessories included?

No, pouches, straps, and other storage accessories must be purchased separately according to your needs.
