

9489 Powerpack battery for Peli™ RALS 9480 / 9490 floodlight

The Powerpack 9489 battery for Peli™ RALS 9480 and 9490 floodlights is the must-have accessory to keep your Peli™ LED area lights performing and operational. Designed to withstand the electrical demands of Peli™ RALS floodlights, this battery is the ideal solution for ensuring reliable, long-lasting power for your LED lighting equipment, whether used in demanding conditions or professional outdoor environments.

Features:

- **Dimensions:** 27.3 x 10 x 26.3 cm
- **Weight:** 8.39 kg
- **Battery technology:** Acid and sealed lead plates (SLA)
- **Surge protection fuse:** Protects the battery during the charging phase.
- **Charging time:** Approx. 480 minutes for a full charge.
- **Service life:** Up to 500 cycles, depending on charging strategy.
- **Product type:** Rechargeable battery for Peli™ LED headlamp RALS 9480 and 9490
- **Manufacturer's reference:** 094800-3047-000E
- **Customs code:** 8513900000
- **EAN:** 19428129491

Advantages of a 9489 Powerpack battery for Peli™ RALS 9480 / 9490 Projector:

- **Enhanced safety:** built-in surge fuse protects the battery during charging phases to prevent electrical damage.
- **Robustness:** The reinforced polypropylene shell guarantees increased resistance to shocks and harsh conditions.
- **Longevity:** With an impressive 500 charge cycles, this battery offers long-lasting, reliable performance for long-lasting lighting.
- **Portability and practicality:** The battery features an integrated carrying handle, enabling easy transport and ergonomic handling during use in the field.
- **Compact and efficient:** Its small footprint allows two batteries to be used simultaneously, avoiding any

interruption of lighting during extended interventions.

Application:

This Powerpack battery is ideal for professional users of Peli™ RALS 9480 and 9490 floodlights, particularly in the fields of security, archaeology, emergency response, or in any situation requiring a powerful and reliable source of illumination. It maximizes the autonomy of LED floodlights by guaranteeing a continuous power supply, even in difficult working conditions.

- **For firefighters:** Make sure your floodlights remain operational throughout the incident.
- **For security teams:** Maintain a reliable light during outdoor missions or in poorly lit areas.
- **In the industrial and military sectors:** High-performance lighting, even in the most extreme environments.

The Powerpack 9489 battery for Peli™ RALS 9480 and 9490 floodlights is a high-quality piece of equipment and an efficient solution for powering your LED floodlights. Its robustness, safety and reliability make it a preferred choice for professionals who require powerful, self-contained lighting. At Proteclight.com, this battery represents a long-lasting investment to guarantee the continuous performance of your lighting systems at all times and in all circumstances. Don't wait any longer, choose the Powerpack 9489 battery for reliable energy without compromise.
