Helmet support ring F1/F2 for torch 3315Z0

F1/F2 helmet mount ring for 3315Z0 Peli™ torch

The **ring for 3315Z0 Peli** is an essential accessory for safety professionals, firefighters and first-aiders. Designed specifically to ensure optimum attachment of the **Peli 3315Z0 flashlight** to **F1 and F2 helmets**, this adapter ring guarantees perfect compatibility and optimum stability in emergency situations. Its robust, lightweight design ensures reliable use even in the most extreme conditions.

Technical specifications:

- **Flashlight compatibility**: Peli 3315Z0
- **Helmet compatibility**: F1 and F2 helmets
- **Material**: Highly resistant (polycarbonate or similar)
- **Installation**: Easy to fit, secure fit
- **Weight**: Ultra-light
- **Professional use**: Certified for emergency use

Advantages :

- **Secure attachment**: Securely attaches the Peli 3315Z0 to F1 and F2 helmets without any play or slipping.
- **Adaptability**: Fits perfectly on F1 and F2 helmets, widely used by emergency forces.
- **Robustness**: Designed to withstand shocks, high temperatures and harsh environments.
- **Ergonomics**: Lightweight and discreet, it doesn't interfere with the user's vision or movements.

Use:

The **3315Z0 helmet ring** is ideal for:

- Firefighters using F1 or F2 helmets and wishing to mount a Peli 3315Z0 flashlight.
- Safety professionals working in dark or low-visibility environments.
- Rescue teams working in industrial areas, underground or in extreme conditions.

Fast, secure mounting: the accessory snaps on easily, without the need for special tools, and holds the lamp

firmly in place for the duration of the operation.
