

9438 charger for Peli™ RALS 9430A floodlight

9438 charger for Peli™ RALS floodlight

The 9438 charger for Peli™ RALS floodlights is specially designed for first-generation RALS 9430 and 9430SL area lighting floodlights. This reliable, robust charger efficiently recharges the lead-acid batteries in Peli™ RALS floodlights, ensuring prolonged, optimum use of your equipment.

First-generation headlamps are distinguished by their blue external connectors, a key visual detail for identifying these specific models. This charger is an essential accessory for RALS headlamp users, helping to guarantee their performance at all times.

Features :

- **Compatibility:** Designed for first-generation Peli™ RALS 9430 and 9430SL floodlights.
- **Battery type:** Charger suitable for lead acid batteries.
- **Power supply:** Operates on 230 V mains supply.
- **Connectors:** 4 adapter plugs included for international use
 - **Type A:** Canada, USA, Central America
 - **Type C/E/F:** Europe (France, Belgium, Poland, etc.), Asia, South America, Tunisia, Russia
 - **Type G:** United Kingdom, Ireland, Malta, Malaysia, Singapore
 - **Type I:** Australia, New Zealand, China, Argentina
- **Power cable length:** 1.85 meters.
- **Weight:** 340 grams.
- **Body material:** Reinforced polypropylene shell, offering high resistance to shock and wear.

Advantages of a 9438 charger for Peli™ RALS headlamp:

- **Robustness:** The charger is designed to withstand harsh conditions, thanks to its reinforced polypropylene shell, making it ideal for use in the field.
- **International use:** Thanks to the four adapter plugs included, this charger can be used in many parts of the world, making it versatile and practical for international users.
- **Optimized charging:** Respects the charging mode of lead-acid batteries, guaranteeing safe and efficient recharging, extending the life of your projector's battery.
- **Ease of use:** With a cable length of 1.85 meters, this charger offers great flexibility of use, enabling easy connection without the need for additional extension leads.

Usability:

The 9438 charger is an essential accessory for users of the first-generation Peli™ RALS 9430 and 9430SL floodlights. Whether it's for security missions, lighting on industrial sites or in outdoor environments, this charger keeps your floodlights operational by ensuring that they recharge quickly and safely. It's perfect for professionals who need a reliable, robust recharging solution, even in demanding conditions.

The 9438 Peli™ RALS projector charger is a must-have product for users of first-generation Peli™ RALS 9430 and 9430SL projectors. With its robust design, international compatibility and ability to efficiently charge lead acid batteries, it's an ideal choice for keeping your lighting equipment in perfect working order. Investing in this charger will help you extend the life of your floodlights while ensuring optimum performance in all your projects.
