Swivel elbow 3317 for torch PELI™ 3335RZ0

Improve the ergonomics of your 3335RZ0 professional torch

The Peli™ **3317 swivel elbow** is an accessory designed to optimize the use of the **Peli™ 3335RZ0 torch**. Thanks to its robust swivel system, it allows precise adjustment of the lighting angle, making it easier to work in confined, industrial or emergency response environments.

Compatibility and installation

- **Compatible exclusively with:** Peli™ 3335RZ0 torch
- **Material:** high-strength engineering plastic

Recommended use

This steerable elbow is ideal for security, railway, fire or industrial professionals who require manual orientation of their light beam without having to reposition the entire torch.

Advantages of the Peli™ 3317 elbow

- Fast, precise adjustment of light angle
- Improved gestural autonomy during technical operations
- Proven robustness and reliability for intensive use
- Designed to withstand demanding environments

Essential accessory for a high-performance torch

The **Peli™ 3317 elbow** extends the capabilities of the Peli™ 3335RZ0 torch, providing valuable modularity during operations in difficult terrain. Reliable equipment designed for demanding professionals.
