

Nimh 9418Z0 battery for 9415Z0 projector PELI™

The **PELI 9418Z0 battery** is specially designed for use with the **PELI 9415Z0** lamp. This battery model guarantees optimum performance and longer lamp life, providing reliable, powerful illumination even in the toughest conditions.

The Nimh 9418Z0 battery provides stable, constant power to maximize the life of your lamp, while maintaining high levels of safety. Designed for demanding users in professional or leisure environments, this replacement model integrates perfectly with the 9415Z0 lamp, ensuring total compatibility.

Features :

- **Compatibility:** Designed specifically for the PELI lamp model **9415Z0**.
- **Battery type:** Lithium ion (Li-ion), offering greater energy storage capacity and longer life than traditional batteries.
- **Longevity:** Excellent battery life, enabling extended use before battery replacement is required.
- **Performance:** Maintains constant power for effective lighting over long periods.
- **Dimensions :** Adapted to the 9415Z0 lamp, ensuring easy and safe installation.
- **Safety:** Protection against short-circuit, overload and overheating for safe use.

Applications :

- **Professional:** Ideal for security teams, firefighters, or field workers requiring reliable, long-lasting lighting.
- **Leisure and outdoor activities:** Perfect for hikers, campers or anyone needing a rugged light.
- **Emergency response:** A reliable companion for situations where visibility is crucial.

Why choose the PELI 9418Z0 battery?

The PELI 9418Z0 battery is the ideal solution for users of the 9415Z0 lamp, offering not only fast recharging, but also unrivalled longevity. Its advanced technology ensures a stable energy supply, enabling your lamp to provide high-quality illumination for long hours, even in the most extreme conditions. Thanks to its robust and secure design, you can rely on this battery in all your missions, whether professional or leisure.
