Peli™ 2760 headlamp

Peli™ 2760 headlamp - Performance and ruggedness

Discover **the ™ 2760** headlamp, one of the Peli™ headlamps designed for professional and personal use. With its advanced technology, this LED lamp is an efficient, high-performance, all-terrain headlamp, perfect for a variety of outdoor activities such as industrial maintenance, hiking and trekking.

Peli™ 2760 headlamps combine power and robustness, offering adjustable illumination of up to 289 lumens. Thanks to its 3 specific modes, the **Peli™** 2760 **headlamp** adapts to all your needs.

Peli™ 2760 headlamp features:

The Peli™ 2760 headlamp offers an **impressive lighting power** of 289 lumens for a range of 101 meters. It features 4 light intensity levels: 42, 97, 156 or 289 lumens.

Its 4 lighting modes include :

- *Spot lighting:* Perfect for seeing ahead.
- *Downlight:* Perfect for precise visibility.
- *Combination light:* Perfect for all-round visibility (2 wattages available).
- *Flashing light :* Used as a warning signal (safety mode).
- *Red LED light:* Ideal for night vision (fixed or flashing).

Powered by 3 AAA batteries (included), this headlamp provides a maximum battery life of 11 hours. With an IPX4 protection rating, it is splashproof and weatherproof. The Peli™ 2760 headlamp is equipped with a battery life indicator and includes helmet attachment accessories.

Advantages of the Peli™ 2760 headlamp:

- **Multi-beam technology**: Combines performance and adaptability to meet a variety of lighting needs.
- **High Brightness**: Offers 289 lumens of power, ideal for optimal visibility.
- **Operating Modes**: Includes a night vision mode and a flashing mode for added safety during nocturnal activities.
- **Comfort and Ergonomics**: Lightweight and adjustable, it adapts easily to your head for extended use.
- **Waterproof**: Ideal for wet environments, guaranteeing reliable use in all conditions.

The Peli™ 2760 headlamp is particularly useful in the construction sector, for example.

Featuring multi-beam technology, the 2760 headlamp combines **performance and adaptability** : on a construction site where different tasks need to be carried out, the ability to adjust the beam enables workers to quickly switch from wide illumination for movement to concentrated illumination for precision work. With a maximum output of 289 lumens, this lamp offers optimum visibility. Ideal for humid environments, reliable in all conditions: the lamp's waterproofing ensures that it functions properly, even under difficult conditions, without risk of failure.

Peli™ 2760 headlamp contents:

The 2760 headlamp comes with:

- 1 fabric headband
- 1 glue-on helmet mount
- 3 LR3 batteries
