

Magnetic support base for PELI™ 9410L and 9415Z0 projectors

Magnetic support base for Peli™ 9410L and 9415Z0 projectors - Work safely, hands free

The **magnetic support base for Peli™ 9410L and 9415Z0 projectors** is the essential accessory for professionals requiring reliable lighting while keeping their hands free. Designed for quick attachment to any metal surface, it guarantees optimum stability for your projector, even in demanding environments.

Key features

- **Compatibility:** specially designed for Peli™ 9410L and 9415Z0 floodlights
- **Powerful magnetic attachment:** Ensures a firm grip on metal surfaces, enabling secure positioning of the projector
- **Freedom of movement:** Allows hands-free working, improving safety and efficiency in the field
- **Easy installation:** Quickly attaches and detaches without tools, facilitating mobile operations

Benefits for professionals

Whether you're a firefighter, maintenance technician or industrial worker, this magnetic support base offers you :

- **Increased safety:** Reduces the risks associated with manual light handling
- **Improved productivity:** frees up your hands to perform other tasks simultaneously
- **Versatility:** Ideal for use both indoors and outdoors, on construction sites, industrial sites or in emergency situations
