

Headlamp PELI™ 3765 Atex zone 0 rechargeable

Peli 3765Z0 rechargeable torch

The **Peli 3765Z0** right-angle **rechargeable torch** is a top-of-the-range model designed to meet the needs of professionals and demanding users. Featuring advanced LED technology, it provides powerful, reliable illumination in the toughest environments. This model is particularly suited to sensitive areas, thanks in particular to its **ATEX Zone 0** (Category 1) certification, guaranteeing safe use in potentially explosive atmospheres. Its practical down-lighting design allows you to illuminate precisely the path in front of you. Compact and robust, the Peli 3765Z0 torch stands out for its ease of use and reliability, offering an optimal lighting experience for a wide variety of professional and industrial tasks.

Features:

LED lighting:

High mode: 194 lumens

Low mode: 92 lumens

Flashing mode: Ideal for emergency or signaling situations

Battery life: Battery level indicator with 3 integrated blue LEDs for battery status before use.

Rechargeable:

Yes, with a 5-hour charging time.

Power supply:

Battery type: NiMH AA

Number of batteries: 4 AA batteries included

Volts: 4.8 V

Dimensions:

Length: 13.6 cm

Weight (with batteries): 414 g

Weight (without batteries): 312 g

Switches :

Switch type: Push Button Materials:

Body: Anti-static Impact Modified PC/PBT

O-ring: Buna-N Lens: Anti-static PMMA

Coating and clip: Anti-static Impact Modified PC/PBT

Certifications :

ATEX Zone 0 (Category 1), for use in explosive and hazardous atmospheres.

Benefits :

- **Safety and reliability:** **ATEX Zone 0 certification** guarantees maximum safety in high-risk environments, such as sensitive industrial zones. This model can be used without fear in explosive atmospheres (gas, dust, etc.).
- **Powerful, adaptable lighting:** choose from three lighting modes to adjust power to your needs. The **high** mode (194 lumens) ensures excellent visibility, while the **low** mode (92 lumens) enables extended use with reduced energy consumption. The **flashing mode** is ideal for signaling or emergency situations.
- **Autonomy and practicality:** the battery level indicator lets you quickly check battery status before each use. What's more, the torch is **rechargeable**, so you can use it economically and ecologically.
- **Robust, lightweight construction:** Made from **antistatic and impact-modified** materials, the torch is both strong and shock-resistant, yet light enough for easy transport.
- **Convenient to use:** The **right-angle** design lets you direct the light where you need it, and

the presence of a **push-button switch** ensures easy activation, even when wearing gloves.

Uses:

The Peli 3765Z0 torch is ideal for a wide range of professional applications, such as:

- **Working in ATEX environments:** In the oil, gas or chemical industries, where safety is paramount.
- **Emergency response:** Thanks to its flashing mode, it can be used to signal a critical situation.
- **Maintenance and repairs:** Thanks to its high-quality lighting and light weight, it's perfect for both indoor and outdoor work.
- **Outdoor activities:** Whether camping, hiking or other outdoor activities, its sturdiness and autonomy make it an ideal companion.

The **Peli 3765Z0 right-angle** rechargeable torch is a must-have choice for those looking for a reliable, powerful and safe lighting solution. Its **ATEX Zone 0 certification** makes it essential safety equipment in sensitive environments, while its various lighting functions and practical design ensure easy, effective use in a variety of situations. Compact, robust and durable, the Peli 3765Z0 is a high-quality product that will accompany you in your most demanding tasks. Benefit from Peli's **lifetime warranty** (where permitted by law) for total peace of mind.
