Lifebuoy ogive rescue

Ogive Rescue lifebuoy: Optimized safety and buoyancy

The Rescue Can lifebuoy is essential equipment for all lifeguards in aquatic environments, especially on beaches. Designed to offer speed, safety and efficiency during rescue operations, this lifebuoy is the preferred choice for professional rescuers. Its ergonomic design and robust construction make it a reliable rescue tool, suitable for both simple interventions and the most complex rescues.

Features :

- **Dimensions**: 68.58 x 25.4 x 15.24
- **Line length**: 180 cm
- **Construction material**: Polyethylene plastic
- **Ergonomic handle**: Contoured shape with double grip for easy handling
- **Safety line**: Includes 180 cm line with adjustable nylon harness for convenient carrying
- **Weight**: Lightweight and easy to handle during operations

Benefits:

- **Superior durability**: Made from polyethylene, this lifebuoy is particularly robust and resistant to impact, UV rays and wear caused by water salt. It guarantees exceptional longevity in tough conditions.
- **Ergonomic design**: Thanks to its contoured shape and double-grip handles, the Rescue Can is designed to fit all hand sizes, offering a comfortable and secure grip during rescue operations.
- **180 cm rescue line**: The sturdy nylon line enables rescuers to intervene quickly, while guaranteeing optimum control during rescue operations.
- **Lightweight and easy to use**: The lightweight design makes the buoy easy to carry and maneuver during rescues.
- **Versatility**: This buoy is perfect for single or multiple interventions, and is suitable for a variety of situations, from swimmer rescues to those involving more complex conditions.

Uses:

Essential lifeguard accessory: Indispensable for beach lifeguards and water rescue teams.

Complement to buoy belts : Ideal for diversifying rescue tools by offering a reliable alternative to traditional tubes.

Solution for all types of rescue: Perfect for rapid interventions, but also for more complex situations involving multiple victims.

Guaranteed stability and safety: Designed to provide a stable, secure grip, even in difficult conditions.

Effective intervention: Allows rescuers to act quickly and confidently during rescue missions.

The Rescue Can lifebuoy is an **essential tool** for any professional rescuer looking to **optimize his or her ability to intervene** in the field. Its **ergonomic design**, **durability** and **versatility** make it a first-rate choice for anyone working to keep swimmers safe. With this equipment, lifeguards can intervene more quickly, safely and in a wide range of conditions, helping to save lives with confidence.
