Cederroth eyewash cabinet with 2 x 500 ml bottles 51011040

The Cederroth eyewash cabinet is a compact, effective safety solution for high-risk work environments. It is designed to provide quick and convenient access to two bottles of Cederroth Eyewash, enabling immediate treatment of dangerous splashes of acids, alkalis, dust or dirt in the eyes. This model is particularly suitable for dusty, dirty environments or where space is at a premium. Thanks to its sturdy construction and functional design, the cabinet provides protection against dust and water, guaranteeing the efficiency and cleanliness of the bottles at all times. Its transparent lid provides optimum visibility of contents, and bottle handling is simplified by an automatic opening system with a simple twist.

Features :

- **Cabinet dimensions**: Width 192 mm, Length 296 mm, Depth 92 mm
- **Contents**: 1 x Eyewash cabinet + 2 x Cederroth Eyewash bottles (500 ml each)
- **Material**: Green plastic made from over 64% recycled plastic
- **Transparent lid**: Allows clear, easy visibility of the bottles inside
- **Automatic opening**: Bottles open automatically when removed from holder by simple rotation
- **Use**: Bottles can be used to rinse away splashes of acids, corrosive alkalis, dust and dirt
- **Clear instructions**: An instruction panel is provided, together with a lighted sign indicating the procedure to be followed
- **Storage**: Recommended storage temperature between +2°C and +40°C
- **Certification**: The vials are medical devices and are CE certified

Advantages :

- **Optimum protection**: The transparent lid protects the vials from dust and water, keeping them clean and working properly in an emergency.
- **Ease of use**: Bottles open instantly thanks to a rotation system, enabling immediate rinsing.
- **Compact design**: Ideal for tight spaces, the cabinet can be easily installed even in environments where space is at a premium.

- **Ecological**: The recycled plastic used for the cabinet is an environmentally-friendly choice.
- **Standards-compliant**: CE medical device, a guarantee of quality and safety.
- **Easy to install**: Can be mounted on any vertical surface, whether on a wall, in a vehicle or on a laboratory bench.
- **Clear visibility**: Transparent cover and illuminated instruction panel ensure maximum visibility, even in low-light conditions.

Use:

This eyewash cabinet is essential safety equipment in many high-risk work environments, such as industrial workshops, chemical laboratories, construction sites, or dusty, dirty workspaces. It enables rapid reaction in the event of hazardous substances being projected into the eyes, reducing the risk of serious injury. What's more, its compact design and ease of installation make it a practical choice for workspaces where space is limited.

The Cederroth eyewash cabinet is an **effective, reliable** and **easy-to-use safety** solution for workplaces where the risk of hazardous splashes is high. Its **intelligent** design, combined with the use of recycled materials, makes it both **practical and environmentally friendly**, while complying with safety standards. By offering a fast, immediate response in the event of an emergency, it helps protect employees against eye hazards, while ensuring easy installation and quick access to eyewash bottles.
