

Peli™ 1200 waterproof case

Waterproof case PELI™ 1200

Since 1976, the **Protector** suitcase from **Peli™** has been the benchmark equipment for protecting your sensitive items when traveling in extreme environments. Designed to withstand the harshest conditions on earth, this rugged case is the go-to choice for professionals and adventurers seeking maximum protection for their gear.

Made in the USA, Peli™ cases are renowned for their reliability and durability. Equipped with advanced features such as an automatic purge valve, watertight lid and ergonomic handles, they are the ideal companion for transporting your equipment in any situation.

Features :

- **Automatic purge valve:** balances air pressure to facilitate transport in high- or low-pressure conditions, while maintaining the seal.
- **Watertight lid with O-ring seal:** perfect protection against humidity and water infiltration.
- **Overmolded rubber handles:** guarantee a comfortable, solid grip for easy transport.
- **Stainless steel structure:** for maximum robustness in the face of aggressive environments.
- **Pick N Pluck™ with rolled foam for lid:** allows interior customization for a perfect fit of your equipment.
- **Waterproof, shockproof and dustproof:** designed to withstand the most extreme conditions.
- **Open-cell interior with solid wall:** lightweight, yet extremely strong.
- **Easy-opening double-turn latches:** guarantee safety while allowing rapid access.
- **Automatic pressure-balancing valve:** keeps moisture out while keeping outside air in.
- **Peli™ limited lifetime warranty:** a guarantee of confidence in the suitcase's durability.

Benefits:

- **High-quality protection:** the Protector Peli™ case offers optimum protection against water, shock and dust. Ideal for sensitive equipment, it guarantees their safety in extreme conditions.
- **Convenient transport:** The case's ergonomic handles and light weight ensure easy, convenient transport, even over long distances.
- **Versatility:** Whether you're a professional, a traveler or an adventurer, this case adapts to your needs, whatever the environment (intense cold, extreme heat, dusty conditions).
- **Interior customization:** thanks to Pick N Pluck™ foam, you can adjust the interior to perfectly protect your precious items.
- **Reliability and longevity:** Made in the USA, the case comes with a limited lifetime warranty, proving

Peli™'s confidence in the durability of its product.

Use:

The **Protector Peli™** suitcase is ideal for professionals needing to transport sensitive equipment (electronic devices, scientific instruments, medical equipment, etc.). Thanks to its waterproof and resistant features, it's also perfect for adventurers, photographers, military personnel or researchers working in harsh conditions.

- **Water protection:** Designed to resist splashing and immersion, this case protects your equipment even in damp environments.
- **Securing fragile equipment:** features like Pick N Pluck™ foam ensure a secure hold for your items.
- **Suitable for extreme environments:** freezing temperatures or sweltering heat have no impact on this case's performance.

The **Protector Peli™ case** is the ideal tool for those seeking ruggedness, reliability and ultimate protection for their equipment in extreme conditions. With its advanced design, rock-solid durability and limited lifetime warranty, it's a sound investment for any professional or enthusiast. Thanks to its cutting-edge technical features, the Peli™ case ensures the safety of your most precious belongings, wherever you are.
