

Peli™ 1490 waterproof case

Since 1976, the Peli™ Protector case has set the standard for protection of sensitive equipment, providing optimum safety when traveling in extreme environments. Designed to withstand the harshest conditions, this case is the ideal solution for safely transporting your valuable possessions, whether electronics, tools or other sensitive equipment. Made in the U.S.A., Peli™ cases guarantee exceptional sturdiness and longevity.

Thanks to its meticulous design and cutting-edge features, the Protector case is perfectly suited to use in extreme climates, whether in icy environments or subjected to intense heat.

Features :

- **Notebook-compatible dimensions:** up to 43.9 cm long, 24.9 cm wide and 8.3 cm deep.
- **Automatic purge valve:** This technology balances air pressure, preventing water infiltration while keeping the case watertight.
- **Watertight lid with O-ring seal:** Guaranteed protection against external elements (water, dust, humidity).
- **Overmolded rubber handles:** Comfort and safety in use thanks to a pleasant, sturdy grip.
- **Stainless-steel structure:** for added strength and resistance to shock and weather.
- **Double-security locking latches with keys:** To protect your belongings with enhanced security against intrusion.
- **Pick N Pluck™ foam:** Allows custom foam arrangement inside the case for optimal support of your equipment.
- **Open-cell interior with solid wall:** Lightweight yet strong, this structure guarantees the perfect balance between protection and mobility.

Benefits :

- **Superior protection:** Protector is designed to withstand the most extreme conditions. Whether in extreme cold or extreme heat, your equipment will remain safe.
- **Convenient and comfortable:** Thanks to its ergonomic handles and intelligent design, the case is easy to carry, even in difficult mobility situations.
- **Securing your equipment:** double-security locks and Pick N Pluck™ foam ensure that your equipment is perfectly held and protected against shock and vibration.
- **Watertight and pressure-balanced:** The automatic purge valve maintains a stable internal pressure while preventing water from entering, which is essential for safeguarding your sensitive assets.

- **Customizable:** The case's interior can be tailored to your needs thanks to Pick N Pluck™ foam, guaranteeing a perfect fit for all your equipment.

Use:

The Peli™ Protector case is ideal for a wide range of applications, including:

- **Transporting laptops and sensitive electronics:** It protects against shock, moisture, and dust, making it the perfect choice for professionals who travel frequently.
- **Outdoor use:** Thanks to its robustness and weather resistance, it's ideal for adventurers, professional photographers or technicians working in extreme conditions.
- **Specialized equipment protection:** Whether it's medical equipment, cameras, drones or other fragile equipment, Protector offers unrivalled protection.

If you're looking for a reliable, robust and secure transport solution for your sensitive equipment, the Peli™ Protector case is the answer. Designed to withstand the most extreme conditions while offering comfortable transportation, it's a wise investment for any demanding professional or adventurer. Trust Peli™ to keep your belongings safe, wherever you are.
