Tactical flashlight PELI™ 2360

Peli™ 2360 Tactical Flashlight - Power, Robustness and Reliability

The Peli™ **2360 tactical flash** light is a professional lighting tool designed to meet the demands of the security and industrial trades. Compact, handy and high-performance, it delivers a light output of up to **375 lumens** thanks to its high-intensity LED. With **three lighting modes** - high, low and flashing - it can be adapted to any situation, from work in dark environments to operations requiring a warning light signal.

Made from type III anodized aluminum, the Peli™ 2360 torch is resistant and waterproof (**IPX8** standard), guaranteeing optimal operation even in damp environments or under immersion. Its compact size (14 cm) and light weight (153 g) make it easy to carry and use for extended periods.

Features :

- **Light output**: up to 375 lumens
- **Lighting modes**: high, low, flashing
- **Operating time**: up to 13 hours in low mode
- **Material**: Type III anodized aluminum, high resistance to wear and impact
- **Waterproofing**: IPX8 standard (prolonged immersion)
- **Dimensions**: 14 cm long
- **Weight**: 153 g (including batteries)
- **Power supply**: conventional batteries (type specified according to model)
- **Accessories**: removable pocket clip for secure attachment

Advantages :

- **Robustness and reliability**: Its military-grade anodized aluminum body guarantees exceptional durability, even in extreme conditions.
- **Lighting versatility**: Three adjustable modes let you modulate the light to suit your needs - bright, dim to save battery power, or flashing for signaling.
- **Compact and handy**: Easy to carry and handle, it slips neatly into a pocket or attaches securely with the removable clip.
- **Long-lasting battery life**: Up to 13 hours of light in low mode, for extended use without interruption.
- **Guaranteed waterproof**: Thanks to its IPX8 certification, the torch works perfectly in the rain or when submerged.

Use:

The Peli™ 2360 tactical flashlight is ideal for:

- **Security professionals** (officers, police officers, guards)
- **Industrial workers** operating in dark or hazardous environments
- **Night patrol and inspection** operations
- Operations requiring reliable, powerful lighting, even in wet or rainy conditions
- Everyday use thanks to comfortable grip and light weight
- Secure attachment to uniforms or belts via removable pocket clip

Its compact design makes it easy to intervene quickly and safely in low-visibility areas.

The Peli™ 2360 tactical flashlight is a must-have piece of professional lighting equipment for anyone who demands ruggedness, reliability and performance. With 375 lumens, flexible lighting modes and a waterproof anodized aluminum housing, it ensures optimum visibility in all critical situations.

Compact, lightweight and long-lasting, this torch is ideal for the security and industrial sectors. What's more, the unconditional lifetime Peli™ warranty offers peace of mind that's unique on the market.

Invest in the Peli™ 2360 tactical flashlight, your trusted ally for safe, powerful and long-lasting illumination.
