

Peli iM2400 waterproof carrying case

The **Peli™ Storm case** combines the legendary DNA of the Peli™ Protector cases with essential improvements for enhanced safety and performance. Its innovative design features a unique push-pull latch that automatically locks the case while offering easy one-touch opening. Guaranteed for life, this high-quality case is made in the USA using first-class components. Offering perfect waterproofing and outstanding strength, the Peli™ Storm case is the ideal choice for those seeking reliable, durable protection for their sensitive equipment.

Features:

- **Automatic push-pull latch:** A unique mechanism that locks the case securely, yet allows easy opening with a simple push.
- **High-performance HPX® resin:** Made from ultra-durable HPX® resin, the case offers exceptional resistance to shock, impact and extreme conditions.
- **Waterproof and resistant to the elements:** The case is totally waterproof, dustproof and shockproof, ensuring the safety of your equipment even in the most hostile environments.
- **Two-layer soft-grip handles:** Designed for maximum comfort during transport, these sturdy, ergonomic handles ensure a secure, comfortable grip.
- **Vortex® valve:** Balances the suitcase's internal pressure, making it easy to open and hermetically seal to prevent water or dust infiltration.
- **Two padlockable hasps:** Provide an extra level of security to protect your belongings.
- **Heavy-duty hinges:** Designed to withstand the highest stresses, these hinges ensure reliable opening and closing over the long term.

Benefits:

- **Ultimate protection for your equipment:** Thanks to its HPX® resin construction, the Peli™ Storm case protects your belongings from external elements, including water, dust and impact.
- **Ease of use:** The innovative push/pull latch makes securing and opening the case effortless, a major advantage for users in a hurry or on the move.
- **Lifetime warranty:** This product comes with a lifetime warranty, giving you unrivalled peace of mind in the knowledge that quality and reliability are assured for the long term.
- **Built for extremes:** Whether you're traveling or transporting valuable equipment in harsh conditions, this case is made to withstand harsh environments and intensive use.

Uses:

The **Peli™ Storm suitcase** is ideal for professionals, adventurers, and photographers who need to carry sensitive equipment in extreme working or travel conditions. It is particularly recommended for:

Professional photographers: To protect cameras, lenses and other fragile equipment from weather and impact.

Frequent travelers: Those who need an ultra-rugged case to carry their personal belongings, documents or valuable equipment.

Military and field workers: To ensure the safety of sensitive equipment in difficult climatic conditions and on varied terrain.

Technical industries: Where expensive or sensitive equipment needs to be protected from dust, moisture and impact.

Opting for the Peli™ Storm case means choosing robustness, safety and ergonomics. Its innovative design, rock-solid strength and lifetime warranty make it a must-have choice for those seeking a reliable, practical and high-performance product. Whether you're a professional, an adventurer or a traveler, this case will meet your most demanding needs, while protecting your most precious possessions
