Waterproof carrying case Peli 1460 - Tool case

Protector 1460TOOL Peli - Ultimate protection for sensitive equipment.

Since 1976, Peli**'s Protector** case has been the global benchmark for protecting sensitive equipment, even in the most extreme conditions. Made in the USA, this sturdy case is designed to accompany professionals on all terrains: missions in hostile environments, expeditions, transport of fragile equipment..

Its ingenious design and ultra-resistant construction ensure uncompromising protection against shock, dust, humidity and pressure variations. Whether in the polar cold or scorching heat, the Peli suitcase remains a guarantee of absolute safety.

Features :

- **Sturdy,** lightweight, open-cell polymer resin**structure**
- **IP66 tightness** thanks to a **high-performance O-ring** seal
- **Automatic decompression valve**: balances air pressure while preventing water infiltration
- **Ergonomic rubber-molded handles** for comfortable transport
- **180° opening lid**: improved stability in the field, anti-roll effect
- **Double-turn locking system**: secure and easy to open
- **Adjustable and removable interior partitions** for customized organization

Partition dimensions:

Upper partition: 44.83 x 20.83 x 6.10 cm

Lower partition: 43.94 x 20.32 x 5.84 cm

Advantages:

Extreme protection against water, dust, impact and extreme temperatures
Durable, reliable design - used for almost 50 years by professionals worldwide
Easy, comfortable transport with reinforced handles
Versatile - Modular partitions to accommodate all types of equipment
Can be used anywhere - Meets military and industrial resistance standards

Use:

The PeliTM Protector case is ideal for :

- **Secure transport of electronic or photographic equipment**
- **Field missions** (military, scientific, humanitarian)
- **Protecting sensitive tools** in the security, health and engineering sectors
- **Shipping fragile equipment** by plane, boat or off-road vehicle

Choosing the **PeliTM Protector case** means opting for unrivalled protection, designed to withstand anything. Thanks to its top-of-the-range construction, modularity and certified waterproofing, it perfectly meets the needs of demanding professionals.
