

## 15-liter emergency first-aid bag

The first-aid bag with full zipper opening is designed to provide quick access to your medical supplies. Ideal for healthcare professionals, first-aiders, or for use in emergency situations, it combines functionality, ergonomics and sturdiness. It features multiple compartments to organize and secure your medical supplies, enabling fast, efficient intervention in any situation.

### Features :

- **CODURA exterior coating:** This material is particularly durable and resistant to wear, abrasion and harsh weather conditions. It guarantees the bag's longevity while providing maximum protection for its contents.
- **High-quality YKK® zipper:** The YKK® zipper is renowned for its robustness and reliability. It allows the bag to be opened quickly and easily, even in emergency situations.
- **Reflexite® retro-reflective tape:** For better visibility in low-light conditions, the retro-reflective tape ensures increased safety, especially when traveling at night or in dark environments.
- **Dimensions:** 42x32x14 cm
- **Capacity:** 15 liters
- **Weight:** 1 kg
- **Pockets and compartments:**
  - Full-zip opening for quick and easy access to all gear.
  - Two front pockets with elastic bands for essential gear.
  - Two removable inner pockets (32x12x5 cm) with transparent front for quick identification of contents.
  - Additional inner pocket with elastic bands for optimal storage.
- **Carrying system:**

- Hand carry handle for easy handling.
- Two over-molded, comfortable and ergonomic backpack carrying straps for long, comfortable transport.

## Advantages :

- **Optimized storage:** Thanks to its multiple pockets and compartments, this bag enables clear, structured organization of your medical equipment. So you can quickly find what you need in an emergency.
- **Convenient to use:** Full-zip opening and front pockets with elastics allow quick access to the contents of the bag, which is essential in emergency situations.
- **Carrying comfort:** The bag is designed for easy, comfortable transport. The ergonomic handgrip and shoulder straps ensure maximum mobility and comfort, even on long journeys or during prolonged use.
- **Improved visibility:** Reflexite® retro-reflective tape ensures that the bag is clearly visible in low-light conditions, which is crucial for user safety.
- **Robustness:** CODURA coating and YKK® zipper ensure high resistance to outdoor conditions, offering exceptional durability to this bag.

## Use:

This first-aid bag is indispensable for any professional or emergency responder, such as first-aiders, paramedics, or even for companies, schools, or sports clubs that want to be ready in the event of an accident. Thanks to its 15-liter capacity, it can hold a wide range of first-aid products while remaining lightweight and easy to transport. Its modular organization and durability make it perfect for use outdoors or in demanding environments.

The first-aid bag with full zipper opening is a wise choice for anyone needing efficient, secure storage for their first-aid equipment. Its practical design, sturdiness and ease of transport make it a must-have for safety-conscious professionals and individuals alike. With its 15-liter capacity and numerous functions, it guarantees a fast, efficient response, whatever the location or situation.
