

25-liter medical first-aid bag with 4 kits

The medical intervention bag is the essential tool for healthcare professionals on the move. It's designed to provide fast, secure access to all your medical essentials, thanks to its full-zip opening and numerous pockets. This fully padded bag provides optimum protection for your equipment, while being easy to carry, either by hand or on your back. The bag stands out for its sturdiness and functionality, with features tailored to the needs of emergency physicians, paramedics and other practitioners.

Features:

- **Dimensions:** 35 x 33 x 22 cm
- **Capacity:** 25L
- **Weight:** 2 kg
- **Outer shell:** CODURA, a fabric renowned for its strength and resistance to wear and tear.
- **Zipper:** YKK®, a guarantee of quality and durability for easy, reliable opening and closing.
- **Reflective tape:** Reflexite®, for enhanced visibility even in low-light conditions.
- **Pockets**
 - 1 front pocket
 - 4 outside side pockets
 - 4 removable inner pockets (dimensions: 30 x 14 x 5 cm), including a transparent front for quick identification of contents.
- **Carrying system**
 - Hand carry handle for easy handling.
 - Comfortable, over-molded shoulder straps for carrying on the back.
 - Retractable shoulder straps for secure attachment to belt and chest.

Advantages :

1. **Quick, organized access:** Thanks to its multiple pockets and full-zip opening, this bag provides quick access to all your medical equipment, essential in emergency situations.
2. **Carrying comfort:** Comfortable shoulder straps and a carry handle offer great carrying flexibility, so you can carry it with you wherever you go, as a backpack or handbag.
3. **Sturdiness and durability:** CODURA fabric and YKK® zipper guarantee optimum resistance to intensive use, while ensuring the safety of your equipment.
4. **Visibility and safety:** Reflexite® retro-reflective tape makes it easy to see even in dark environments,

which is essential for emergency response.

5. **Space optimization:** Removable interior pockets with transparent front section offer neat organization, while allowing quick identification of contents.

Use:

This intervention bag is specially designed for healthcare professionals such as paramedics, emergency physicians, and other emergency responders. It's ideal for carrying all the medical equipment you need on the move, while ensuring organized, accessible storage. With its 25L capacity, it offers ample space for medical instruments, medicines and other accessories, while remaining compact and easy to carry.

The medical intervention bag is an optimal choice for all healthcare professionals requiring functional, robust and comfortable equipment for their interventions. Its meticulous design, rapid accessibility and storage capacity make it an invaluable ally for efficient, safe interventions. With its design geared to comfort and practicality, this bag adapts perfectly to the requirements of emergency medical environments.
