

Mouthwash protection sheets, box of 100

Pack of 100 mouth-to-mouth protection sheets

- Designed for teaching biological barriers, latex-free and economical.

This pack includes 100 face shields specially designed for use with training dummies. Manufactured without latex, they offer a hygienic and cost-effective solution for training in protection and infection prevention techniques. These screens enable learners to practice in optimal conditions, while complying with health and safety standards.

Each pack contains 100 units to meet the needs of intensive training sessions.

Features :

- Latex-free, ideal for allergy sufferers
- Designed for teaching biological barriers
- Economical and practical for training use
- Supplied in packs of 100
- Total pack weight: 0.57 kg

These face shields are an ideal choice for training centers, healthcare facilities and schools wishing to offer effective, safe training.
